

A “quick” virtual walking tour through New Castle. Bring your dog if you have one.

Park at the end of Delaware street by Battery Park by the river.

To start, we'll briefly walk into Battery Park, then up Delaware Street and around town.

Total distance: < 1miles

Total time ~300 years.

And a real walking tour in the spring!

Now is not a great time for a walking tour.

I'll do one for this class on Saturday, April 27 (rain date Sun, Apr. 28)

Starting at 30 The Strand. Ending after an hour or so with coffee at my house.

I'll send out a reminder in March to everybody that has been getting my pdfs.

Virtual aerial tours and “walkabouts” are available

These would be lecture 14....

They are by Bruce Burk, and award winning videographer John Geisel

Check out the 7 links on the New Castle Weekly

<https://www.newcastleweekly.com/digital-walk-abouts>

and the Trustees of New Castle County

<https://trusteesncc.org/Video.html>

Focused on the Old Library, but wonderful aerial views of town.

Meet some New Castle Residents

The man on the left is a UD professor interested in immigration.

The man in the middle told me about the "*Nathaniel's Nutmeg*" the book about the Dutch and the spice trade in the 1600's.

The dog is Boris, my granddog, A 12 year old pure bred long haired husky.

A “quick” virtual walking tour through New Castle.

Park at the end of Delaware by the river. To start, we'll walk up Delaware Street from there. (Then down 6th, back 4th Over to the Green down to the Strand, up Chesnut, back 3rd.)

Digression to horticultural history

Osage oranges on the ground after a heavy wind

Osage Orange Trees in Battery Park

These trees (aka hedgeapple) once lined the NC&FT RR Route all the way to Frenchtown

Indigenous to Texas. Lewis & Clark shipped a sample to Jefferson from St. Louis

The trees are thorny, are widely planted as a hedge (Winterthur).

1932

Spread by man, not animals. The fruit is inedible, though squirrels tear them apart. Possibly once a food of “pleistocene mega fauna”, e.g. giant sloths, mastodons

Ice Piers/Ice Breakers

Constructed by town (1794), the U. S. Corps A.E 1804-1882

4-6 courses of Maine granite on an underwater wooden crib all filled with rock

Cost to repair (1990)
\$1 million each.
The Corps declines.

1719

Through Church Alley to The Strand

Looking down The Strand towards Delaware Street

Site of the Dutch Tile House

Built 1600's – 1687 ??

Destroyed 1884

Adjacent wall has remains of early neighboring buildings

Up Harmony to E 2nd, over to Chestnut and back on E 3rd towards starting point.

King House

100 Harmony (at The Strand), c1850 (NHR)

Old Icehouse (Colonial Revival)

103-105 Harmony

Loading ice blocks from 2nd floor of barn into wagon

Built over the foundations of 'Zippy' King's icehouse. Cellar with tall ceilings (12'?) and floor sloping to drain. Ice shipped from Maine. Built by Phillip Laird

Colonial Revival (1990?)

107-109 Harmony, next to Ice House

Rising Sun Tavern

Front part: 1796

Back part: 1801

Service window on side

Mantle trim in back probably done by Peter Crouding (Read House, Wiley House, Academy, Thomas Hotel – all ~1800)

There is a mill stone in the basement wall! (Probably local, not Dutch ☹)

Italianate Row Houses

Row of 10 Italianate Houses, 200 block of Harmony St.
built by Wm. Herbert, State Treasurer, 1870's

Spread Eagle Tavern

114 E 2nd c1750 (NHR)

Bull Hill (c1850)

Ira Lunt House

227 Chestnut, c1875

A Maine style house with attached barn. The latter was removed about 10 years ago.

Mr. Lunt was employed by a Maine contractor to build the ice piers. He and the granite for the piers was shipped down. Granite blocks of the house foundations are from Maine!

Ira Lunt Daughters' Houses

Built by Ira Lunt in the 1920's. He died from a fall while working on one of these houses.

Kit House

Aladdin Company, Order 10092,
166 E 3rd, 1917 Stanhope #1, to A. H. Padberg,

The Stanhope \$697.30 Price, Size No. 1, \$734.00
Cash discount, 5%
Net price, \$697.30

ARE you not pleased with the Stanhope? Can you conceive how with straight architectural lines any more pleasing or substantial style of construction could have been worked out? Notice what a strong yet artistic appearance is given the entire front by the heavy porch pedestals, square porch columns and porch rail.

How in keeping are the small lights in bungalow door and the upper divided lights in all windows. And when it comes to interior plan, it would be very difficult to work out a more convenient arrangement. The wide arch between living and dining rooms gives an appearance of one large room.

The double action door leading to a kitchen large enough, yet none too large, completes the living part of this compact, cosy home. Three well lighted, suitable sized bedrooms give as much sleeping room as is frequently found in a much larger home. For any one desiring a six-room modern house all on one floor, the Stanhope is a great favorite. The Aladdin read-cut system of construction offers you a big saving on this home. You are now able to dodge the high cost of building because you pay for no waste of materials or labor in erecting an Aladdin. Match this against the excessive cost of waste in building on the old-fashioned method. Then compare market prices with Aladdin prices and you will realize the big advantage offered you in the Aladdin read-cut system. It is estimated that 18% of the materials are wasted in building on the saw-measure-on-the-ground method. This means \$18 out of every \$100 is paid for waste actually lost! The Aladdin system has reduced this waste to less than 2%—put the \$18 in your pocket. Can you afford to build on any other plan? Do you care to make this saving? Ask us for names of customers—let them tell you in their own words. There are many owners of the Aladdin Stanhope throughout the country. Probably there is one near you. We will send you names of owners—you can pay them a visit and inspect their home and material. Study General Specifications on pages 12 and 13. Complete detail specifications will be sent you upon request. See Terms on page 2.

Floor Plan The Stanhope No. 1

Price for the Stanhope size No. 2, \$830.00. Cash discount, 5%. Net price, \$788.50

Floor Plan The Stanhope No. 2

Foster House

159 E 3rd, late 1700's

A family member, Camille Foster, still lives in town and worked as a secretary for Immanuel church for years.

When she grew up in this house she remembers that the top floor bedrooms were not heated. In the winter, a glass of water by the bed would freeze.

Martino Residence
